1. You will immediately have full access to Online Planning Tools.
 - * (This will give you ideas for the important dances during your wedding and maybe even remind you of songs that you might have completely forgotten about. You can create, save and update song request lists as many times as you want.)
 - * Please remember that online planning is not required since You, Your Fiancé and Dave will have a full planning session together where he can help lead you through and even give you song ideas to choose from.
2. You will also have as many planning sessions as you need while creating the perfect soundtrack for your wedding via telephone, online or in person with Dave.
 - * This is usually done within a 1-hour planning session, but you can take as much time as you want. There is no rush when choosing the perfect songs for Your Wedding. (Dave actually follows Pop music and knows the hits of the past, present and future and is willing to help you out with ideas if you would like him to.)
3. DJ Dave Awesome will be your personal liaison between you and your caterer, photographer, videographer, Reception site coordinator and all of the other vendors who are a part of your wedding. After all of your decisions are made and your planning is completed, Dave will create and bring copies of a complete Wedding Reception timeline so that everyone is on the same schedule.
4. You will have DJ Dave Awesome as an enthusiastic MC to lead all of the events and activities, DJ all of the music that you and your fiancé requested and LED lights filling your dance floor during the entirety of your reception.
 - * Requests are welcomed
 - * Line Dances and Popular activities are actually taught by Dave to everyone who wants to learn and be a part of them.
